

B.Amyloliquefaciens (*pm414*) 1×10^8 cfu/ml

TM

LI-PEPTA

MADE IN AUSTRALIA

Use as directed
Always refer to the MSDS

Manufacture date:

Batch No. :

Contents: 20L

APPLICATION RATE

Drench	Fertigation	Foliar
100ml/L	15L/ha	1L/100L

FEATURES AND BENEFITS

Roots	Leaves	Fruit
Competitive exclusion	Pre-emptive colonisation	Shelf-life extension via Bio-Film protection
Phosphate solubilisation and adsorption	Nutrient chelation via creation of ion conducting pores	Increased food safety due to competitive exclusion and no MRL
